

SonicWALL PRO 3060 and PRO 4060

INTERNET SECURITY APPLIANCES

- ▷ Cost-effective, enterprise-class firewall throughput and VPN concentration
- ▷ Powerful, flexible, easy-to-use integrated security platform
- ▷ Total business continuity solutions supporting WAN redundancy, **Hardware Fail-over and Load Balancing**
- ▷ Comprehensive central management powered by award-winning SonicWALL Global Management System

Today's highly connected organizations move vast amounts of business-critical data across networks. For organizations, the value of this data is extraordinary – as is the ability to move it quickly, reliably and securely. In order to maintain and safeguard business continuity these organizations must employ advanced features such as fast, secure VPN access, highly reliable network connectivity, powerful performance and flexible, scalable configurability.

The SonicWALL® PRO Series Internet Security Platform, featuring the PRO 3060 and PRO 4060, provides complete business continuity for even the most complex networks. Powered by SonicWALL's next-generation SonicOS operating system, the PRO 3060 and PRO 4060 deliver enterprise-class firewall throughput and VPN concentration. Unbeatable price/performance characteristics make the PRO Series Platform the ideal solution for companies that need rock solid network protection coupled with fast, secure VPN access for remote employees.

Standard on the PRO 4060 and an optional upgrade on the PRO 3060, SonicOS Enhanced delivers powerful business continuity and flexibility features including ISP Fail-over, Load Balancing, Hardware Fail-over and Policy-Based NAT. Six fully configurable 10/100 Ethernet interfaces allow administrators to create multiple LANs, WANs, DMZs and custom-defined zones. The PRO Series also integrates seamlessly with the SonicWALL suite of security services, including Complete Anti-Virus and Content Filtering Service, for an added layer of protection and productivity. Combined with an innovative Web interface, the PRO 3060 and PRO 4060 are the ultimate choices for robust internal and external security, network configuration flexibility and ease-of-use.

Object-Based management capabilities further distinguish the SonicWALL PRO Series, allowing network administrators to define an object one time (a user group, network, service or schedule) and reuse the same object wherever and whenever it is needed. Administrators can change security policies by modifying objects and propagating the changes instantly across the network. This added flexibility enables businesses to implement and manage security parameters rapidly, easily and reliably.

The PRO Series Internet Security Platform can be easily managed remotely as part of a multi-firewall and VPN environment through a Web interface or using SonicWALL's industry-leading Global Management System (GMS). This gives network administrators an economical yet powerful set of tools for rapid deployment, configuration, and management of global security policies from a central location.

The SonicWALL PRO 3060 and PRO 4060 deliver the most powerful, flexible, cost-effective network security platform available, maximizing uptime, safeguarding vital network assets and infrastructure, and ensuring complete business continuity.

With industry-leading firewall/VPN capabilities, the PRO 3060 and PRO 4060 comprise a complete enterprise-class security platform, and integrate with the SonicWALL security upgrades shown here. For details Go to www.sonicwall.com, or call +1 408-745-9600.

SONICWALL PRO 3060 AND PRO 4060 FEATURES AND BENEFITS

SonicOS Standard Delivers:

EASE-OF-USE AND MANAGEMENT

Streamlined GUI. The PRO 3060 and PRO 4060 feature an innovative Web interface making it simple to set up in any network environment.

Integrated Security Services. The PRO 3060 and PRO 4060 provide everything needed for secure connectivity and supports SonicWALL's portfolio of security services, including Complete Anti-Virus, Content Filtering Service and Global Security Client, without the need to integrate separate devices or software packages.

SonicWALL Support. Every PRO 4060 includes one year of SonicWALL Support for customers seeking advanced technical support and the additional benefits of on-going software updates.

POWERFUL PERFORMANCE

High-performance Architecture. The PRO 3060 and PRO 4060 include a powerful processor and cryptographic accelerator to deliver the best possible performance with 300+ Mbps Stateful Packet Inspection firewall and 75 Mbps (PRO 3060) or 190 Mbps 3DES and AES VPN throughput.

Hardware Encryption Support. Both models reflect SonicWALL's commitment to open security standards by including hardware-based acceleration support for the 3DES and AES encryption algorithms.

Standard on PRO 4060 and Optional Upgrade on PRO 3060, SonicOS Enhanced Adds:

COMPLETE BUSINESS CONTINUITY

WAN ISP Fail-over and Load Balancing. The PRO 3060 and PRO 4060 offer the ability to designate one of the user-assigned ports as a secondary WAN port that can be used in "active-passive" fail-over configuration, providing a highly efficient method for distributing or load sharing outbound WAN traffic.

Hardware Fail-over. Should the active unit fail, the passive unit assumes responsibility for forwarding traffic, offering greater reliability and redundancy.

TOTAL FLEXIBILITY

Multiple Interfaces per Security Zone. Network administrators can group multiple physical interfaces on the PRO 3060 and PRO 4060 into logical "Zones" for ease-of-management and flexibility. This provides tremendous flexibility, scalability and added internal security when deploying SonicWALL firewalls in various network topologies.

Multiple Configurable Interfaces. With six fully configurable 10/100 Ethernet interfaces, both models allow network administrators to create additional WANs, LANs, DMZs and custom-defined zones for greater network configuration flexibility and internal security.

Object/Policy-Based Management. The PRO 3060 and PRO 4060 provide the ability to define an object such as a user group, network, service or interface. When security policies change, the administrator can modify the pre-defined object and propagate the changes instantly without redefining rules. This enables businesses to implement and manage security policies easily and consistently.

Policy-Based NAT. In addition to NAT (many-to-one) functionality, the PRO 3060 and PRO 4060 expose control of NAT policies to administrators for one-to-one NAT, many-to-many NAT, one-to-many NAT, inbound Port Address Translation (PAT), flexible NAT (for overlapping IP addresses), as well as NAT policies on selective source/destination/source translations. The result is greater control and flexibility to support and manage various NAT requirements.

SONICWALL PRO 3060 AND PRO 4060 TECHNICAL SPECIFICATIONS

Processor:	2 GHz Intel Main Processor and Cryptographic Accelerator
RAM:	256 MB
Flash Memory:	64 MB Secure Compact Flash
Interfaces:	3/6* 10/100 auto-sensing Ethernet (1) WAN Port, LEDs (1) LAN Port, LEDs (4) Configurable Ports, LEDs (1) Serial Port
Firewall Performance:	300+ Mbps
Firewall Nodes:	Unlimited

Concurrent Connections:	PRO 3060: 128,000 PRO 4060: 500,000
VPN Performance:	PRO 3060: 75 Mbps (3DES and AES) PRO 4060: 190 Mbps (3DES and AES)
Site-to-Site VPN Policies:	PRO 3060: 500/1,000* PRO 4060: 3,000
Bundled VPN Client Sessions:	PRO 3060: 25 (500 Max.) PRO 4060: 1,000 (3,000 Max.)
Standards:	TCP/IP, UDP, ICMP, HTTP, HTTPS, IPsec, ISAKMP/IKE, SNMP, DHCP, PPPoE, L2TP, PPTP, RADIUS

Major Regulatory Compliance:	EMC: FCC Class A, ICES Class A, CE, C-Tick, VCCI, BSMI, MIC, NOM Safety: UL, cUL, TUV/GS
Environment:	Temperatures 40-105° F, 5-40° C Humidity 10-90% non-condensing
Dimensions:	17.00 x 13.00 x 1.75 inches (43.18 x 33.02 x 4.45 cm)
Weight:	13.00 lbs (5.90 kg)
LEDs:	Status (Power, Test, Alarm) LAN (Link, Activity) WAN (Link, Activity) DMZ (Link, Activity)
Power Input:	100-240VAC, 60-50Hz, 1.5A
Power Consumption:	Nominal 143W
Heat Dissipation:	530BTU

*Requires SonicOS Enhanced firmware upgrade

- 1) Serial Console Port
- 2) Power, Test, Alarm
- 3) LAN Port, LEDs
- 4) WAN Port, LEDs
- 5-8) Additional Configurable Interfaces*

SONICWALL PRO 3060 AND PRO 4060 PART NUMBERS, SERVICE & SUPPORT

01-SSC-5365 SonicWALL PRO 3060 (US/Canada)
01-SSC-5366 SonicWALL PRO 3060 (International)
01-SSC-5368 SonicOS Enhanced Firmware Upgrade for PRO 3060

01-SSC-5370 SonicWALL PRO 4060 (US/Canada)
01-SSC-5371 SonicWALL PRO 4060 (International)

01-SSC-3060 SonicWALL Support for PRO 3060
01-SSC-3061 SonicWALL 24x7 Support for PRO 3060
01-SSC-3064 SonicWALL International Support for PRO 3060

01-SSC-3062 SonicWALL Support for PRO 4060
01-SSC-3063 SonicWALL 24x7 Support for PRO 4060
01-SSC-3065 SonicWALL International Support for PRO 4060

SONICWALL VALUE-ADDED SECURITY SERVICES

SonicWALL Internet security appliances integrate seamlessly with an expanding array of value-added security services to provide a comprehensive security solution.

For more information on these SonicWALL security services, please visit our Web site at www.sonicwall.com/products/vpnsoft.html.

SonicWALL's Internet security appliances consistently receive awards from industry-leading publications.
